# Hope in God:

UNDERSTANDING,  
OVERCOMING AND  
PREVENTING DEPRESSION

God knows and understands the deepest problems of the human heart, and depression is no exception. Great insights into and help for this problem are available in God's Word for those who are currently struggling with depression, those who wish to equip themselves to defend against it in the future, and those who wish to help and encourage others who are struggling with it today.

This course also includes seven studies on selected names of God and seven topical studies on increasing your hope.
